About me

I am Ahasanuzzaman Ridoy.I feels comfortable with my identity and have a strong sense that my environment is comprised of clear,logical,and consistent rules and features.My familiarity with the world has led one critic to describe her as a "disembodied intellect".My behavior is very cool.I like to keep myself away from any debate.

Other information

Review

I Came to Dhaka from Chapainawabgong to Complete my graduation. Now I am Final Year student Of Dept of Computer science and Engineering in University Of Asia Pacific. I'm very good at communicating with others. I can adapt myself to any environment.I dislike to argue without reference. I like to keep myself busy.I do not do such things that question my conscience.I do my best to do something myself.So I want to do something alongside my education.I am very careful about my responsibility.

Thank You
