## Abstract

This template presents the author guidelines for all submissions for Journal of Computational Vision and Imaging Systems. Please ensure that all guidelines are followed prior to submission.

## 1 Introduction

*Journal of Computational Vision and Imaging Systems* provides a forum for the dissemination of research results and technical advances in the field of computer vision and imaging. The goal of the journal is to bring together both academia and industry to share their joint expertise to promote the advancement and application of computer vision and imaging technologies in various areas of academic and industrial interests. *Journal of Computational Vision and Imaging Systems* is published on an on-demand basis and is the official journal of the KWVIS Society.

Topics covered by the journal include, but are not limited to:

- Reconstruction, restoration, and enhancement
- Machine learning / Artificial intelligence
- Compression and transmission
- Content-based image retrieval
- Object detection, recognition, and classification
- 3D and stereoscopic imaging and reconstruction
- Multispectral imaging, processing, and analysis

\*Use footnote for providing further information about author (webpage, alternative address)—*not* for acknowledging funding agencies.

- Video processing and analytics
- Biometrics processing and analysis
- Visual quality assessment of images and video
- Computational imaging
- Document and sign processing and analysis
- Applications to various fields (e.g., remote sensing, health monitoring, biomedical, consumer electronics, manufacturing, life sciences)

## 2 Format

All submissions to *Journal of Computational Vision and Imaging Systems* must follow the below requirements:

- Letter page size format
- Double-column format
- Maximum length of three pages, including all figures and references
- Must include a short abstract with a maximum of 150 words.

All citations should follow the format at the end of this template [1, 2].

## 3 Equations

All equations must include an equation number. An example equation is shown in Eq. 1:

$$y = ax + b \quad (1)$$

Figure 1: Example figure for *Journal of Computational Vision and Imaging Systems*.

- [2] —, “More author guidelines.” in *Proc. CVIS*, 2015, pp. 1–3.

## 4 Figures

All figures must include a figure number as well as an associated caption. An example figure is shown in Fig. 1.

## 5 Tables

An example table for the *Journal of Computational Vision and Imaging Systems* is shown in Table 1.

Table 1: Example table for *Journal of Computational Vision and Imaging Systems*.

Symbol	Description
$y$	Symbol 1 description
$x$	Symbol 2 description
$a$	Symbol 3 description
$b$	Symbol 4 description

## 6 Conclusion

In conclusion, following these author guidelines will ensure that the submitted paper is in the proper format for publication in *Journal of Computational Vision and Imaging Systems*.

## Acknowledgments

We thank you for reading these guidelines.
