

Presentation

Title

THESIS

Anthony Author

UNIVERSITY

School

Department

Supervisor: Mister Supervisor, Professor

October 22, 2017

1 Motivaton

- The basic problem that we have studed
- Previous work

2 Results / contribution

- Main results
- Subsection title

Contents

1 Motivaton

- The basic problem that we have studied
- Previous work

2 Results / contribution

- Main results
- Subsection title

Slide Title #1

Slide subtitle #1

- Use the `itemize` environment frequently.
- Use short sentences and phrases.
- In this presentation we use the `\pause` macro.

Slide Title #1

Slide subtitle #1

- Use the `itemize` environment frequently.
- Use short sentences and phrases.
- In this presentation we use the `\pause` macro.

Slide Title #1

Slide subtitle #1

- Use the `itemize` environment frequently.
- Use short sentences and phrases.
- In this presentation we use the `\pause` macro.

Slide Title #2

- You can define the order of appearance.
- Like here.
- This is the second item to appear.

Slide Title #2

- You can define the order of appearance.
- Like here.
- This is the second item to appear.

Slide Title #2

- You can define the order of appearance.
- Like here.
- This is the second item to appear.

Slide Title #3

- Group without title.
- Appears for all slides.

Group title

- $e^{i\pi} = -1$.
- $e^{i\pi/2} = i$.

Slide Title #3

- Group without title.
- Appears for all slides.

Group title

- $e^{i\pi} = -1.$
- $e^{i\pi/2} = i.$

Contents

1 Motivaton

- The basic problem that we have studied
- Previous work

2 Results / contribution

- Main results
- Subsection title

Slide Title #4

Example

First example.

Example

Second example.

Watermark

Slide Title #4

Example

First example.

Example

Second example.

Watermark

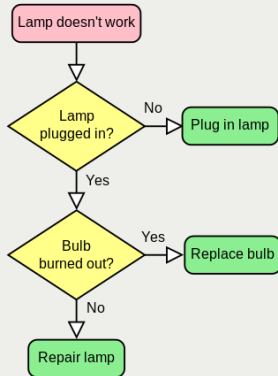

Slide Title #5

Table example

	col 1	col 2	col 3
row 1	11	12	13
row 2	21	22	23

Slide Title #6

Figure example

(source: Wikipedia)

Slide Title #7

Math examples

$$B' = -\nabla \times E \quad (1)$$

$$E' = \nabla \times B - 4\pi j$$

Contents

- 1 Motivaton
 - The basic problem that we have studied

- 2 Results / contribution
 - Main results
 - Subsection title

Summary

Attention

This is an important alert

Contents

- 1 Motivaton
 - The basic problem that we have studed
 - Previous work

- 2 Results / contribution
 - Main results
 - Subsection title

Summary

- The **first main message** of our talk.
- The **second main message** of our talk.
- Maybe a **third message**, but ... no more.

- Conclusion.

- Future work.

- Discussion.
