DECLARATION OF ORIGINALITY

I hereby certify that I am the sole author of this thesis and that no part of this thesis has been published or submitted for publication.

I certify that, to the best of my knowledge, my thesis does not infringe upon anyone's copyright nor violate any proprietary rights and that any ideas, techniques, quotations, or any other material from the work of other people included in my thesis, published or otherwise, are fully acknowledged in accordance with the standard referencing practices. Furthermore, to the extent that I have included copyrighted material that surpasses the bounds of fair dealing within the meaning of the Canada Copyright Act, I certify that I have obtained a written permission from the copyright owner(s) to include such material(s) in my thesis and have included copies of such copyright clearances to my appendix.

I declare that this is a true copy of my thesis, including any final revisions, as approved by my thesis committee and the Graduate Studies office, and that this thesis has not been submitted for a higher degree to any other University or Institution.

ABSTRACT

Type your thesis abstract

DEDICATION

I would like to dedicate this thesis to my mom for her incredible love and support. Because I believe that she is the real backbone of our family, this is to appreciate her selfless hard work and efforts towards the family.

Furthermore, I dedicate it to my dad to raise me like a son and give me wings to fly. To my grandfather, for always trusting me and supporting me in my hard times, without his encouragement, nothing would have been easy. And to my entire family for their unconditional affection towards me.

ACKNOWLEDGEMENTS

I would like to sincerely express my most profound gratitude towards my supervisor Dr.X, whose input helped me immensely. With his input, I was able to look at my research with a different perspective and a more critical eye.

Secondly, I would like to express my gratitude to my thesis committee members for their beneficial advice and suggestions for my thesis.

I would also like to thank my friend X for always encouraging and supporting me.

I humbly extend my thanks to the School of Computer Science and all concerned people who helped me in this regard.

LIST OF FIGURES

1.1.1	Figure Example	1
-------	--------------------------	---

LIST OF ABBREVIATIONS

TP	True Positive
FN	False Negative
FP	False Positive
TN	True Negative
TPR	True Positive Rate
FPR	False Positive Rate
FNR	False Negative Rate
TNR	True Negative Rate
FRR	False Rejection Rate
FNMR	False Non Match Rate
FAR	False Rejection Rate
FMR	False Match Rate
EER	Equal Error Rate
SVM	Support Vector Machine
DT	Decision Tree
KNN	K Nearest Neighbors
NB	Naive Bayes
LR	Logistic Regression
RF	Random Forest
MLP	Multi Layer Perceptron
LGB	Light Gradient Boosting Machines

NN	Neural Network
GA-KNN	Genetic Algorithm -K Nearest Neighbors
IForest	IsolationForest
One-Class SVM	One Class Support Vector Machine
